*"FORGED IS BETTER"*

## WE OFFER

- **7075 aluminium** alloy forged, water hardened, Termically Treated and pickled products
- Raw, **80% and 100% machined** products
- **Finishings** (colored anodization, cerakote, camouflage) on 100% machined products
- Support in product designing and developing through the **FORGE SIMULATION SYSTEM**
- 40 years experience in the forging field

## WHY FORGED?

- The precision forging process tends to reduce the number of mechanical operations
- The results of HOT DEFORMATION through forging determines a GREATER STRENGHT and MICROSTRUCTURAL CHANGES

## SERVICES

- **Premium Quality**
- Global orders with scheduled deliveries
- **Civil and military License**

## PRODUCTS CUSTOMIZATION

- Minimum allowance on the rough part with the possibility to obtain **COMPLEX AND DIFFERENT GEOMETRIC SHAPES**, according to the customers drawings
- Product industrialization which allows **BIG QUANTITIES** production
- Constant cooperation between the **INTERNAL TECHNICAL OFFICE** and the customers technicians in order to get the most suitable solution for the forging shape
